ADMISSIONS

THINKING ABOUT TRANSFERRING TO UF?

To be eligible to transfer to UF, you need to complete an Associate of Arts degree from a Florida public institution or at least 60 transferable semester credit hours from an accredited institution.

If you have less than 60 credit hours or have already completed a bachelor's degree, you are not eligible to transfer to an on-campus program and should consider applying for a UF Online program.

It is highly unlikely that you will be able to change your major after being admitted.

• I already have a bachelor's degree and would like to get another bachelor's degree. Can I get my second bachelor's degree at UF?

UF does not allow students to earn a second bachelor's degree on campus. This option is only available for online students and students studying at statewide location centers.

• Is it easier to transfer from Santa Fe College?

Students earning an AA degree from any Florida public institution have equal preference in the admission process.

• I am a senior in high school and will have my AA degree or 60 college credits when I graduate high school. Should I apply as a transfer?

No, all high school students who will graduate with an AA degree or 60 college credits should apply as freshmen and select an intended major. If you are not able to be admitted as a freshman, we will ask if you would like to be considered as a transfer applicant to that major (if you have the prerequisites for that major).
