

AKF001US | Universal Foldable Keyboard for Android™

The Targus Universal Foldable Keyboard for Android features a foldable, lightweight design made for easy transportation.

Universal compatibility with Android™ smartphones and tablets.

Foldable feature delivers a compact design, perfect for travel.

Carrying case included protects the keyboard in travel mode.

Case converts into a device stand for landscape or portrait viewing positions.

Bluetooth™ 3.0 technology eliminates wires for connectivity to device.

Rechargeable lithium battery with USB to Micro USB charging cable included. No separate AA or AAA batteries needed.

Fully-sized keyboard provides an exceptional typing experience that is enhanced with clever shortcut buttons.

Designed for use with tablets or smartphones running on Android 3.1 or higher
