

TILLMAN®

1403 WINTER DRIVERS GLOVES

SPECIFICATION SHEET

Soft and abrasion resistant goatskin on the Tillman 1403 Winter Glove offers the user the comfort and dexterity required for the most demanding of tasks performed in cold weather.

To help keep hand dry, WaterShield™, a molecular coating is impregnated into the leather for outstanding water and liquid resistance. 100 Gram Thinsulate C40 insulation keeps hands warm in cold winter weather.

FEATURES

- Supple top grain Goatskin that offers durable protection for the hand.
- Goatskin outwears other leathers of the same weight and offers outstanding tactile sensitivity in cold weather.
- WaterShield™, a molecular coating, is impregnated into the leather to resist water and liquid from penetrating the leather keeping hands dry.
- 100 grams of 3M Thinsulate insulation keeps hands warm on cold winter days.
- Shirred elastic wrist provides a secure fit and aids in keeping debris and snow out of the glove.
- A flexible keystone thumb allows greater movement for enhanced dexterity.

APPLICATIONS

- Construction
- Industry
- Maintenance
- Auto repair
- Equipment operators
- Truck drivers
- General use with public utilities
- Municipal services
- Farm & Ranch
- General construction work

CARE INSTRUCTIONS

Goatskin leather is water resistant, the leather can be cleaned with a mild, pumice based soap and left to air dry. The user can also apply a leather conditioner after washing for enhanced performance.

If the leather is scrubbed aggressively, the WaterShield™ waterproof coating could be scrubbed off.

WARNING

Read, understand and follow all labels and instructions prior to use. Inspect products before each use and remove from service if there is any evidence of damage or excessive wear. Extreme caution should be used when handling sharp objects and around machinery.
